

Which US States Spend the Most on Music

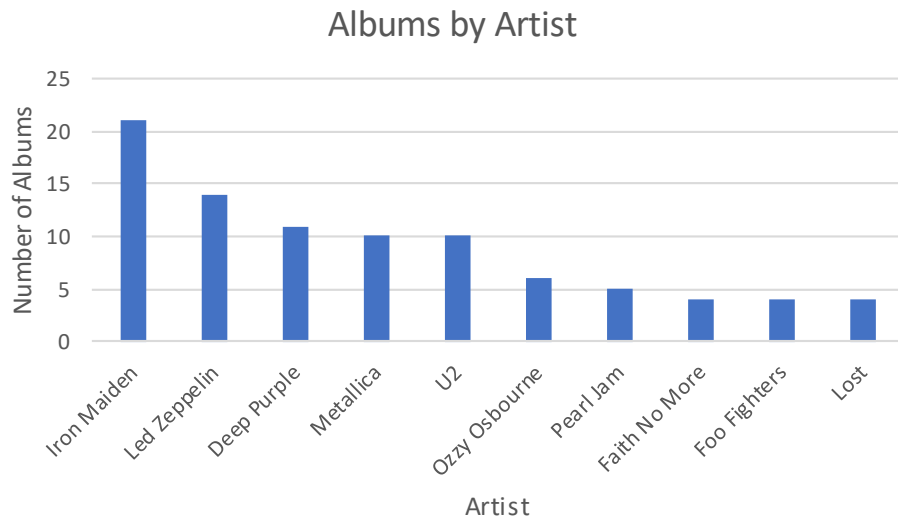

We can see that California has the largest spending of any US State. The other nine states do not even spend half of what California does.

Most Popular Genres

Rock Rules! Rock is the most popular Genre with 1,297 tracks. Latin is very popular as well, but by only about half as many songs.

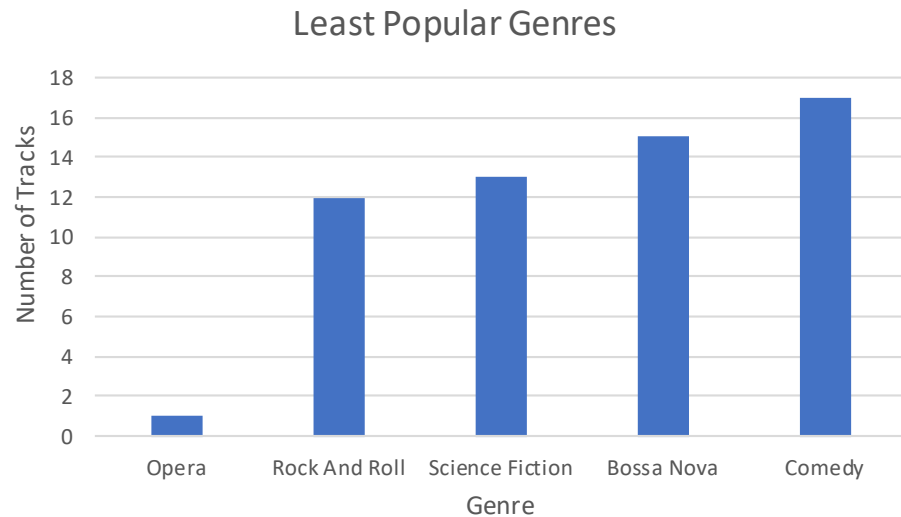

Who has the most records

Iron Maiden is very prolific at releasing albums, 21 total!

Led Zeppelin is in second with 14, almost half of what Iron Maiden has released.

Least Popular Genres

Opera is not popular at all, only 1 track. It doesn't even come close to the next least popular genre, Rock and Roll with 12 tracks.

Should the Rock and Roll Genre category be looked at to see if there is consolidation that could be made with Rock?
